INTERNSHIP WORK REGISTER

of

Eber Johns C D

THAYSCS028

BACHELOR OF COMPUTER SCIENCE HONOURS

DEPARTMENT OF COMPUTER SCIENCE

ST THOMAS COLLEGE (AUTONOMOUS) THRISSUR

2024 - 2028

INTERNSHIP WORK REGISTER

Student Name: Eber Johns C D

Register No: THAYSCS028

Programme: Four Year B.Sc (Honours)

Department: Computer Science

Institution: St. Thomas College (Autonomous), Thrissur

Batch: 2024-2028

Current Semester: Semester V

Internship Organization: Italian Planters LLC

Organization Address: Office No:116, Addiyar Building, SZR, PO:113494, Dubai

Supervisor Name & Designation:

Total Required Internship Hours: 120 Hrs

Sl. No.	Date	Hours Worked	Cumulative Hours	Remarks
1	20 April 2026	2.0	2.0	
2	24 April 2026	3.0	5.0	
3	30 April 2026	3.5	8.5	
4	7 May 2026	3.5	12.0	
5	11 May 2026	4.0	16.0	
6	18 May 2026	3.5	19.5	
7	25 May 2026	3.5	23.0	
8	5 June 2026	4.0	27.0	
9	10 June 2026	3.5	30.5	
10	17 June 2026	4.0	34.5	
11	24 June 2026	4.0	38.5	
12	27 June 2026	3.5	42.0	
13	1 July 2026	4.0	46.0	
14	2 July 2026	4.0	50.0	
15	3 July 2026	2.0	52.0	
16	4 July 2026	4.0	56.0	
17	7 July 2026	4.0	60.0

37	20 August 2026	3.5	133.5	

Total recorded hours in this draft: **133.5 hours**. The internship is ongoing.

Remarks:

Certified that the above attendance and internship work were completed under my supervision.

Signature of Internship Supervisor:

Name:

Designation:

Seal of Organization:

Date: 20 April 2026

Activities Undertaken

Participated in the initial online discussion and developed an understanding of the proposed field-worker management system and its operational purpose. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 24 April 2026

Activities Undertaken

Reviewed the proposed workflows and identified the major modules, user interactions and dependencies that would guide subsequent development. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 30 April 2026

Activities Undertaken

Studied the technical requirements associated with field-worker location operations and identified practical implementation considerations. Focused on Android location services, geofencing and alarm behaviour.

Date: 7 May 2026

Activities Undertaken

Reviewed the employee information received from the client and considered how the data would support the Field Tracker system. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 11 May 2026

Activities Undertaken

Worked on android prototype / technical testing as part of the ongoing SGS Field Tracker development and testing activities. Developed and tested the standalone Android geofence/alarm proof-of-concept, including location-off handling and alarm UI recovery.

Date: 18 May 2026

Activities Undertaken

Worked on prototype testing as part of the ongoing SGS Field Tracker development and testing activities. Continued testing the Android prototype under different location and application states.

Date: 25 May 2026

Activities Undertaken

Worked on system integration study as part of the ongoing SGS Field Tracker development and testing activities. Studied how the prototype could be integrated into the larger worker application.

Date: 5 June 2026

Activities Undertaken

Reviewed the System Overview, Proposed Features Document and Architecture Diagram and analysed the complete workflow and technical requirements. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 10 June 2026

Activities Undertaken

Worked on system architecture analysis as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 17 June 2026

Activities Undertaken

Worked on detailed requirements as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 24 June 2026

Activities Undertaken

Contributed to the proposed development roadmap, implementation phases, deliverables, infrastructure and iterative review plan. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 27 June 2026

Activities Undertaken

Worked on phase 1 preparation as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 1 July 2026

Activities Undertaken

Worked on technology and phase 1 work as part of the ongoing SGS Field Tracker development and testing activities. Finalized the Flutter-based Android-first worker application approach and Phase 1 mobile workflows.

Date: 2 July 2026

Activities Undertaken

Worked on phase 1 implementation as part of the ongoing SGS Field Tracker development and testing activities. Worked on login, dashboard, assigned schedule, clock-in/out and worker profile functionality.

Date: 3 July 2026

Activities Undertaken

Participated in the Phase 1 client review, recorded feedback and analysed the confirmed enhancements for subsequent development. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 4 July 2026

Activities Undertaken

Worked on review feedback analysis as part of the ongoing SGS Field Tracker development and testing activities. Analysed the mobile impact of recurring scheduling, leave, substitutions, worker information and device restrictions.

Date: 7 July 2026

Activities Undertaken

Worked on next-phase development as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 9 July 2026

Activities Undertaken

Worked on integration development as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 11 July 2026

Activities Undertaken

Worked on cloud integration testing as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 13 July 2026

Activities Undertaken

Worked on workflow development/testing as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration

Date: 15 July 2026

Activities Undertaken

Worked on geofence investigation as part of the ongoing SGS Field Tracker development and testing activities. Compared geofencing behaviour in the integrated Flutter application with the earlier standalone Android prototype.

Date: 17 July 2026

Activities Undertaken

Participated in the Phase 2 progress review and discussed current implementation, technical issues and next development steps. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 20 July 2026

Activities Undertaken

Worked on native implementation investigation as part of the ongoing SGS Field Tracker development and testing activities. Investigated native-level location and alarm difficulties and identified areas requiring stronger Android control.

Date: 22 July 2026

Activities Undertaken

Worked on package / android research as part of the ongoing SGS Field Tracker development and testing activities. Evaluated Flutter native packages and Android integration options for background location, geofencing and alarms.

Date: 24 July 2026

Activities Undertaken

Worked on kotlin / kmp evaluation as part of the ongoing SGS Field Tracker development and testing activities. Evaluated Kotlin and Kotlin Multiplatform as alternatives for native-sensitive mobile components.

Date: 27 July 2026

Activities Undertaken

Worked on android version testing as part of the ongoing SGS Field Tracker development and testing activities. Tested Android versions and devices, focusing on permissions, background execution and location reliability.

Date: 29 July 2026

Activities Undertaken

Worked on cloud deployment/testing as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 31 July 2026

Activities Undertaken

Worked on scope and requirement refinement as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 3 August 2026

Activities Undertaken

Worked on technical research as part of the ongoing SGS Field Tracker development and testing activities. Continued technical evaluation of reliable geofencing, alarms and background location behaviour.

Date: 5 August 2026

Activities Undertaken

Worked on workflow refinement as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 7 August 2026

Activities Undertaken

Worked on testing and debugging as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 10 August 2026

Activities Undertaken

Worked on review preparation as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 13 August 2026

Activities Undertaken

Reviewed the latest project documents covering inputs, outputs, site creation, scheduling, salary structure and overall requirements. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 14 August 2026

Activities Undertaken

Participated in the client discussion regarding the updated documents, clarifications, technical concerns and required changes. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 16 August 2026

Activities Undertaken

Worked on revised architecture evaluation as part of the ongoing SGS Field Tracker development and testing activities. Focused on the worker-side application, Android behaviour and mobile integration.

Date: 18 August 2026

Activities Undertaken

Worked on technical recommendations as part of the ongoing SGS Field Tracker development and testing activities. Contributed to recommendations concerning native control and platform compatibility.

Date: 20 August 2026

Activities Undertaken

Continued the ongoing development and documentation work and supported the submitted technical recommendations, hosting options and revised technology approach. Focused on the worker-side application, Android behaviour and mobile integration.
